## LODE GOLD ANNOUNCES SEMI-ANNUAL FINANCIAL REPORTING (SAR) ADOPTION

**MAY 25<sup>TH</sup>, 2026, Lode Gold Resources Inc** – (“Lode Gold” or the “Company”)(**TSXV:LOD OTCQB:LODFF**) announces adoption of semi-annual financial reporting (“SAR”). This news release is being issued and filed pursuant to Coordinated Blanket Order 51-933 *Exemptions to Permit Semi-Annual Reporting for Certain Venture Issuers* (“CBO 51-933”).

CBO 51-933 is a pilot program that permits eligible venture issuers to voluntarily move from quarterly to a semi-annual financial reporting framework. The Company has determined that it meets the eligibility criteria. By adopting SAR, Lode Gold aims to reduce the disproportionate administrative and financial burden associated with quarterly reporting that will allow management to optimally focus time and financial resources toward advancing the Company's exploration and development projects and other business objectives.

As a result of adopting SAR, the Company will not file interim financial statements and related Management's Discussion and Analysis (“MD&A”) for the three-month period ending March 31 and the nine-month period ending September 30 of each applicable fiscal year. Lode Gold will continue to file audited annual financial statements (due within 120 days of December 31) and six-month interim financial reports and related MD&A (due within 60 days of June 30). Should the Company cease to continue participating in the SAR pilot program, it will announce it in a future news release.

The Company remains committed to timely and transparent disclosure and will continue to provide timely disclosure regarding exploration progress, corporate developments, and other material information in accordance with Canadian securities regulations.

### **About Lode Gold**

Lode Gold has key assets in Canada and the United States.

**Fremont Gold Mine Project** (Fremont Gold Mining LLC) is a brownfield project in Mariposa, California with 43,000 m drilled, 10,000 underground channel samples, 14 adits and 2 shafts. ### **Cautionary Statement Regarding Forward-Looking Information**

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

This news release includes “forward-looking statements” and “forward-looking information” within the meaning of Canadian securities legislation. All statements included in this news release, other than statements of historical fact, are forward-looking statements including, without limitation, statements with respect to the use of proceeds, advancement and completion of resource calculation, feasibility studies, and exploration plans and targets. Forward-looking statements include predictions, projections and forecasts and are often, but not always, identified by the use of words such as “anticipate”, “believe”, “plan”, “estimate”, “expect”, “potential”, “target”, “budget” and “intend” and statements that an event or result “may”, “will”, “should”, “could” or “might” occur or be achieved and other similar expressions and includes the negatives thereof.

Forward-looking statements are based on a number of assumptions and estimates that, while considered reasonable by management based on the business and markets in which the Company operates, are inherently subject to significant operational, economic, and competitive uncertainties, risks and contingencies. These include assumptions regarding,

among other things: the status of community relations and the security situation on site; general business and economic conditions; the availability of additional exploration and mineral project financing; the supply and demand for, inventories of, and the level and volatility of the prices of metals; relationships with strategic partners; the timing and receipt of governmental permits and approvals; the timing and receipt of community and landowner approvals; changes in regulations; political factors; the accuracy of the Company's interpretation of drill results; the geology, grade and continuity of the Company's mineral deposits; the availability of equipment, skilled labour and services needed for the exploration and development of mineral properties; and currency fluctuations.

There can be no assurance that forward-looking statements will prove to be accurate and actual results, and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from the Company's expectations include a deterioration of security on site or actions by the local community that inhibits access and/or the ability to productively work on site, actual exploration results, interpretation of metallurgical characteristics of the mineralization, changes in project parameters as plans continue to be refined, future metal prices, availability of capital and financing on acceptable terms, general economic, market or business conditions, uninsured risks, regulatory changes, delays or inability to receive required approvals, business disruptions, and other exploration or other risks detailed herein and from time to time in the filings made by the Company with securities regulators, including those described under the heading "Risks and Uncertainties" in the Company's most recently filed MD&A. The Company does not undertake to update or revise any forward-looking statements, except in accordance with applicable law.
